

T5 SPORT

Klipsch®

Ideal for the active person, the T5 Sport provides unrivaled comfort, a long-lasting battery, and legendary sound clarity. Our patented comfort ear tips and miniature drivers ensure the earphones stay in place comfortably for hours. Plus, the T5 Sport is rated and tested at IPX4 and will resist sweat, moisture and rain.

LEGENDARY SOUND + GREAT FIT

After 60+ years of making legendary loudspeakers, we built upon our bold audio heritage to revolutionize the headphone industry. Since 2007 we have been creating the most innovative headphones on the market. We are the performance and comfort winners. Period.

The same advanced acoustic engineering and industrial design from our legendary home theater speakers provide the performance, voice and design for the T5 Series earphones. They are engineered for pure performance and designed to be the best sounding most comfortable headphones on Earth and the embodiment of legendary Klipsch sound.

PATENTED OVAL EAR TIPS

Klipsch in-ear monitors utilize patented contour ear tips that are designed to accurately sit inside the ear canal. These soft oval silicon tips reduce ear fatigue, provide the ultimate comfort and an excellent seal for noise isolation and superior bass. They fit better, they feel better, and only Klipsch has them. With your choice of patented oval ear tips, memory-foam tips or optional ear wings, the T5 Sport stays in your ears regardless of what you're doing.

FULL BASS, DYNAMIC DRIVER

Engineered from the ground up to deliver powerful performances from the smallest package, the T5 Sport's dynamic driver combines high output and full bass extension. Ensuring deeper fit and better hold, the smaller acoustic modules are designed to stay in your ears securely and comfortably.

10-HOUR BATTERY

The T5 Sport use a single lithium ion battery to deliver over ten hours of listening to music and taking calls. The integrated cVc® microphone automatically enhances voice clarity and actively reduces environmental noise to ensure your calls are loud and clear.

BLUETOOTH 5

With aptX and aptX HD, the signal is as good as wired with no delay during video playback. Supporting 48 kHz / 24bit LPCM audio, aptX HD is indistinguishable from high resolution audio. The T5 Sport also supports multi-point pairing, so you can pair two devices at once.

EAR WINGS

The T5 Sport earphones include ear wings that assist in keeping the earphones in your ears.

ADVANCED THREE-BUTTON REMOTE

Offers full control of most smartphone models including Android and Apple devices, allowing for seamless control of music and phone calls. The raised controls let you pick up calls, adjust volume, and track through songs.

CABLE MANAGEMENT FOR DUAL WEAR

The T5 Sport earphones provides two options for wear – down and loose or tighten the cord for a secure, unobtrusive fit.

COMPLY™ COMFORT TS-100 TIPS INCLUDED

For a true custom fit and unparalleled security in your ear, a pair of Comply Ts-100 Comfort foam tips are included. The dramatic increase in ear retention ensures marathon-readiness.

SWEAT/WATER RESISTANT

IPX4 rated meaning these earphones will withstand the elements.
